

Expense Tracker System Features

User Roles & Authentication

- **Admin:**
 - Create user accounts (username/password).
 - Assign roles: **Admin**, **User**.
 - Manage categories (add/edit/delete).
 - View all users' expenses.
- **User:**
 - Login with username and password.
 - Manage personal expenses only.

Expense Categories

- Default categories: Food, Transport, Bills, Entertainment, Miscellaneous.
- Admin can **add, edit, or delete** categories.
- Users can only select from existing categories.

Expense Management (User)

- Add new expense (amount, category, description, date).
- Edit an expense.
- Delete an expense.
- View expense history (by date/category).

Budgeting & Alerts

- Users can set a **monthly budget limit**.
- System alerts when spending nears or exceeds budget.

Reports & Analysis

- View expenses by:
 - Daily
 - Weekly
 - Monthly
 - By category
- Generate summary report (total, average, highest, lowest expense).

Data Persistence

- All data stored in **files**:
 - `users.txt` → username, password, role
 - `categories.txt` → available expense categories
 - `expenses.txt` → user expenses log
- Data persists after closing the program.

Admin Management

- Manage users (add, delete).
- Reset passwords.
- View all users' budgets and spending reports.
