

To-Do List Manager Features

Features

1. User Accounts

- Register new users (username + password, stored in file).
- Login system with basic validation.
- Each user's tasks are stored separately.

2. Task Management

- Add a new task (title, description, due date, priority, status = Pending by default).
- View all tasks (tabular list with filtering/sorting options).
- Edit an existing task (change title, description, due date, priority, status).
- Delete a task.
- Mark task as **Completed**.

3. Categorization & Priority

- Assign category (e.g., Work, Study, Personal).
- Assign priority (Low, Medium, High).
- Filter tasks by category or priority.

4. Task Search

- Search tasks by keyword (title/description).
- Search tasks by the due date.

5. Statistics Dashboard

- Show total tasks.
- Show completed vs pending tasks.

- Show tasks by category.
- Show upcoming deadlines (next 7 days).

6. Data Persistence

- Save/load tasks from file (JSON or CSV).
- Keep data separated per user.

7. Backup & Restore

- Export tasks to a backup file.
- Restore tasks from a backup.

8. Extra (Optional)

- Sort tasks by due date or priority.
- Add simple “reminder” feature: warn user if a task is overdue.
